EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with John Brancolini, Reg. No. 57,218, on June 22, 2007. The application has been amended as follows:

Claim 1, line 12, after "opposed to each other" insert -- the upper case includes a first flange extending along the peripheral portion of the upper case; the lower case includes a second flange extending along the peripheral portion of the lower case; and the holding member has an inner surface including an engaging groove engaged with the first and second flanges when the upper case and the lower case are connected to each other --

Claim 11, line 12, after "opposed to each other" insert -- the upper case includes a first flange extending along the peripheral portion of the upper case; the lower case includes a second flange extending along the peripheral portion of the lower case; and the holding member has an inner surface including an engaging groove engaged with the first and second flanges when the upper case and the lower case are connected to each other --

Delete claim 3.

Claim 1, 2 and 4-11 are allowed. The following is an examiner's statement of reasons for allowance: it would not have been obvious to provide a portable device body to accommodate an electronic component, which receives and transmits signal and powered by a battery, such that the portable device body includes the specific limitation(s) of an upper case includes a first flange extending along the peripheral portion of the upper case; the lower case includes a second flange extending along the peripheral portion of the lower case; and the holding member has an inner surface including an engaging groove engaged with the first and second flanges when the upper case and the lower case are connected to each other. These limitations, in combination with the remaining elements or steps are not taught or suggested by the prior art references.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Anthony Q. Edwards whose telephone number is 571-272-2042. The examiner can normally be reached on M-F (6:00-3:30) First Friday Off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jayprakash N. Gandhi can be reached on 571-272-3740. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
